**INFORMATION DISCLOSURE STATEMENT**

Pursuant to 37 C.F.R. §§ 1.56 1.97(d), and 1.97(e)(1), Applicants bring to the attention of the Examiner the documents listed on the attached PTO 1449 which have been cited during the prosecution of related foreign patent applications. This IDS is being filed after the mailing of a Final Office Action but prior to payment of an issue fee. Accordingly, Applicants provide a certification as set forth in C.F.R. 1.97(e)(1) and a fee as set forth in 37 C.F.R. § 1.17(p). Applicants state, according to 37 C.F.R. § 1.97(e)(1), that each item of information contained in the information disclosure statement was first cited in an Office Action from the JPO in counterpart foreign application number 2002-032778 not more than three months prior to the filing of the information disclosure statement. Applicants respectfully request that the Examiner consider the listed documents prior to the first examination on the merits and indicate that they were considered by making appropriate notations on the attached form.

Copies of JPA 2000-132332 (Toru), JPA 09-146691 (Tano), and WO 01/16691 (Fåhraeus) are attached to this paper. Also, a copy of the Office Action in Japanese patent application number 2002-032778 citing these documents is attached. In lieu of a statement of relevance for JPA 2000-132332 and JPA 09-146691, Applicants attach an English Language abstracts for these documents.

This submission does not represent that a search has been made or that no better art exists and does not constitute an admission that each or all of the listed documents are material or constitute "prior art." If the Examiner applies any of the documents as prior art against any claims in the application and Applicants determine that the cited documents do not constitute "prior art" under United States law, Applicants reserve the right to present to the office the relevant facts and law regarding the appropriate status of such documents.

Applicants further reserve the right to take appropriate action to establish the patentability of the disclosed invention over the listed documents, should one or more of the documents be applied against the claims of the subject application.

Respectfully submitted,
